Report on Awareness programme entitled “Go Green: Say no to plastics”

Place – Milli Al- Ameen College (For Girls)

Date – 19.04.2022

The Indian government has taken several steps to address plastic waste in accordance to the ethos of the “Swachh Bharat Abhiyan”. This includes bans on certain types of plastic and initiatives promoting recycling. However, there are challenges in enforcing these policies effectively. One of the most significant steps taken by the government is the implementation of the Plastic Waste Management Rules, which aim to reduce the use of single-use plastic and promote the use of alternative materials. The rules require manufacturers to take responsibility for the collection and disposal of plastic waste and encourage the use of eco-friendly packaging materials. Another measure taken by the government is the Swachh Bharat Abhiyan, a nationwide campaign launched in 2014 to improve cleanliness and sanitation in India. As part of this campaign, the government has set up various initiatives to increase the collection and segregation of plastic waste, such as door-to-door collection, community bins, and plastic waste collection centres.

On 19.04.2022, students of Science Department presented posters in an awareness programme organised by the Departments of Science and Department of Political Science in collaboration with IQAC and Green Club. The title of the awareness programme was “Go Green- Say No to Plastics”.

The students presented posters and also interacted with local people to create awareness. The local people were shown different types of plastic samples and explained the effects they have on environment. Antalina Kar, Head of the department, Botany also enlightened the local people about the raising issues. Our respected principal Dr. Sunanda Halder and members of Governing Body graced the event.

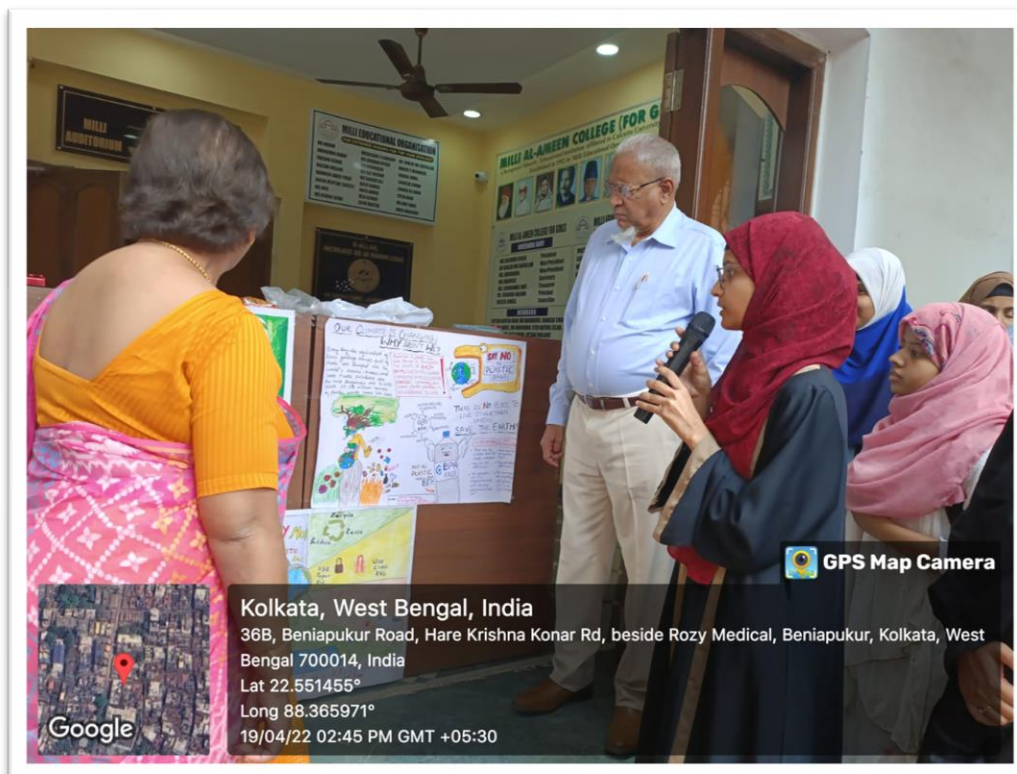

The names of the students who participated in poster presentation are-

1. Faiqa Naaz. B.Sc
2. Saika Rafique B.Sc
3. Sania Siddiquee B.Sc

Report on World Nature Conservation Day celebration on 2nd August 2023

The Green club of Milli Al- Ameen College (For Girls), in collaboration with IQAC and Environmental Consciousness Cell observed 'World Nature Conservation Day (28th July)' on 2nd August 2023.

The uniqueness of the college green club has been to aim at public interaction and public awareness, the philosophy being until and unless the common people are aware of the issues and get involved in making a change, the goal cannot be attained. The celebration of 'World Nature Conservation Day' was no exception. The students presented poster in front of the college gate to gather common people's attention. The theme for 'World Nature Conservation Day (28th July) 2023' was **Forest and Livelihoods: Sustaining People and Planet**. The students vocalized their opinion on the theme, focusing on the importance of forests in every aspects of common people's lives. The current scenario was discussed and also how we can address the issues was also brought into limelight. Antalina Kar (Department of Botany) interacted with local people and tried to explain how each individual can make a change by doing their bit. She emphasized on the role of common people, especially women in bringing a change. The reference of the earliest ecofeminist environmental movement, **The Chipko Movement** was given so that the common women can relate easily.

The program was graced by our respected Principal, Dr. Sunanda Haldar who motivated the students to get involved in such activities and also connect to common people. Many teachers of our college also graced the event and encouraged the students. The event was successful due to the heartfelt endeavour of all those who participated.
