Report on Earth Day celebration on 22.04.2024

Date – 22.02.2024

On 22.04.2024, Departments of Science, Commerce and Geography organised World Earth Day celebration in the college in collaboration with IQAC. The theme of World Earth Day 2024 was '**Planet vs. Plastics**'. Keeping the theme in mind, the students of different departments prepared posters based on the themes.

The students and the teachers of the college participated in a procession that commenced from the college main gate and continued for a distance in the locality. The students and the teachers interacted with local people and also distributed pamphlets based on reducing the use of plastics.

The sole purpose of this program was to create awareness amongst local people about the effects of plastics on our environment and the global climate change and also to encourage people reduce the use of plastics.

The event was graced by our Principal, Dr. Sunanda Haldar and many other teachers. Altogether, the event was a success owing to the endeavour of all the participants.
