IQAC**

**Celebrates
Earth Day 2025: "Our Power,
Our Planet."**

**Date & Time: 22nd April, Tuesday
1.30 PM onwards.**

Venue: Virtual Room

Report on Earth Day Celebration 2025 at Milli Al-Ameen College (For Girls)

Date: 22nd April 2025

Time: 1.30 Pm

Venue: Virtual Room

On 22nd April 2025, Milli Al-Ameen College (For Girls) enthusiastically celebrated Earth Day with great zeal and commitment. This year's Earth Day theme, *"Our Power, Our Planet,"* underscored the collective responsibility we share in nurturing and preserving our environment. In alignment with this global call to action, the Department of Geography and the Department of Science, in collaboration with the College IQAC, organized an insightful and engaging program centred around the topic *"Renewable Resources of Energy."*

The event commenced with an inaugural speech by Dr. Debika Banerji (Department of Geography) followed by Dr. Poulami Hota (Department of Chemistry) discussing about the burning issues related to the sustainability of Earth. Principal, Dr. Sunanda Halder interacted with the students and highlighted the urgent need for adopting sustainable practices in everyday life and encouraged the students to become ambassadors of environmental consciousness. Faculty members from various departments were present to support and inspire the participants, lending academic depth and moral encouragement to the occasion.

A key highlight of the program was the active participation of students through paper presentations and oral expositions. The Paper presentations and Oral presentations were evaluated by Principal Dr. Sunanda Halder and Zarrin Sattar (Department of Political Science). Based on the evaluation of the eminent judges, Ramsha Ashraf Ansari (B.A Hons. SemII) secured the first position followed by Misbah Javed (B.A Hons. SemII) as first runner up and Shahiba Parveen (B.Sc Sem VI) as second runner up. Students showcased their understanding of renewable energy sources such as solar and wind energy. Their presentations were well-researched, informative, and creatively presented, reflecting the enthusiasm and depth of knowledge they had developed on the subject.

After the student's program, a documentary based on 'East Kolkata Wetlands' that purify wastewater naturally, support biodiversity, and sustain livelihoods was shown to enlighten the students about the facts that this unique ecosystem exemplifies sustainable urban living,

balancing ecology and development, vital for Earth's environmental resilience and sustainability.

This initiative not only provided a platform for students to express their views and expand their knowledge, but also instilled a sense of responsibility and empowerment. Participation in such academic and awareness-based events helps nurture critical thinking, public speaking, and research skills among students. It encourages them to engage meaningfully with real-world issues and envision solutions for a sustainable future.

The success of this Earth Day celebration reaffirmed the importance of integrating environmental education into the curriculum and empowering students to become change-makers in society.

Overall, the Earth Day 2025 celebration at Milli Al-Ameen College (For Girls) was a resounding success, leaving a lasting impression on all attendees and reinforcing the message that *our planet's future lies in our collective hands and actions*.
